GENERAL TRADE TERMS

This price list cancels and replaces all previous editions. All the terms and conditions herein described are considered as accepted in every part by clients when sending the order.

Warranty

GARDA furniture is subject to intensive tests according to general safety, stability and mechanical security standards for collective use. It also benefits from special Very high protection and corrosion treatment for outdoor use

This warranty does not apply to:

- Deterioration related to lack of care or non-respect of precautions and advice on reception, mounting, use, maintenance and storage of the furniture.
- Cases in which corrosion is due to improper use: the products should be kept indoors during weather conditions
- Stains or marks that are not reported immediately after unpacking (including marks from the combination of moisture retention + heat)
- Natural wear and tear and fading of the materials used
- Early signs of corrosion that come from scratches or abrasions caused by use
- Cases of minor corrosion beneath the table tops or under seats or legs. They are a natural result of the material used (steel) and can be treated using maintenance tools that are available to you
- Corrosion in stainless steel accessories due to use in a confined and chlorinated environment

The warranty will come into effect only after presentation of proof of purchase - a sales receipt or the product invoice

Technical information

- In case of additional order we will not be able to grant the same shade of the fabric used to cover the already delivered items
 - We cannot guarantee a full shade accordance between the swatches shown in our sample set and the fabric actually used to carry out covers
 - Care and maintenance instructions are provided on the label on each set of samples and in technical sheets
 - The same instructions are provided on the technical card delivered with the product
 - We cannot be held as responsible for any inconvenience caused by improper wash or cleaning
 - All sizes mentioned on the price list are rounded up
 - Garda reserves the right to make any change to parts or details of models necessary for manufacturing or commercial reasons without prior notification
-

Orders

- Must be clearly and completely expressed, model name, size, fabric code and colour, when necessary. Please avoid incomplete and imprecise directions. Please check thoroughly the confirmations of our orders and give immediate notice of any possible mistake or variation

Special Orders

- For orders in custom size, and if the requested change is possible, please consider an up charge of at least 20% on current prices (making reference to the size available as standard bigger than the requested extra standard piece).
- Delivery time for special orders 75 days from the order confirmation

Payments

Payment terms indicated on the order confirmation is considered as accepted

Delays in payments

- In case of delays in payments, company Animo d.o.o. reserves the right to debit and cancel the cash discount where foreseen, and to charge interest rates
- In the event of delayed payments or lack of payments, company Animo d.o.o. has the right to keep on hold supplies to the customers

Delivery Terms

- Delivery time shown on the order confirmation has to be considered as an indication and not as an obligation. In the event of delayed delivery clients have no right to claim for any damages
- As far as the delivery terms, please refer to the sales conditions in our possession
- Deliveries take place exclusively to the delivery address of the customer. Any change in the delivery address has to be agreed when placing the order to check if the delivery can take place to the requested delivery address and to confirm possible additional costs
- We do not deliver to end users directly

Claims

- Possible claims must be expressed in written form within 8 days from the day of arrival of the merchandise, directly to us, or to the forwarders. Please indicate clearly nature of the claim, conditions of package and possible causes of claim
- Any item under claim cannot be returned without written permission of Animo d.o.o. company

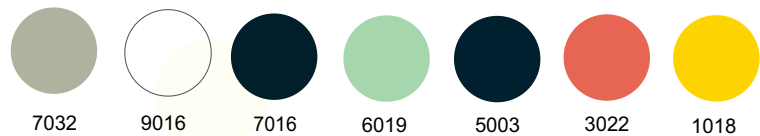

Court of Justice

- The location, where all obligations concerning the Customer are carried out, is the registered office of company Animo d.o.o. in Valjevo. For any legal controversy, the competent Court of Justice is the one in Valjevo/Serbia
-

FINISHING

METAL

Metal elements are made of steel pipes additionally protected during a process of zinc plating, with a possibility of using a stainless steel pipes instead (inox), while in the final processing, technique of powder coating is being applied in specific color. As the result, the final product is being made that meets all the requirements for using in outdoor conditions.

ROPE

The ropes used in the GARDA collections are made specially for outdoor use and made in synthetic material that is highly resistant to UV rays, abrasion and atmospheric events. They are different in their cross-section (flat and round) and are used to create extremely practical and comfortable woven chairs and chair-backs.

*Ataman
collection*

*Kapua
collection*

MARBLE

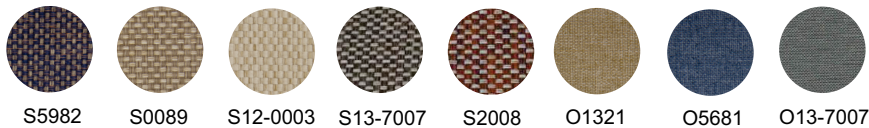

Marble is certainly one of the most precious and used stones for the outdoor. Marble, thanks to its particular composition and nature, is a little porous and not absorbing stone, hardness and resistance, making marble one of

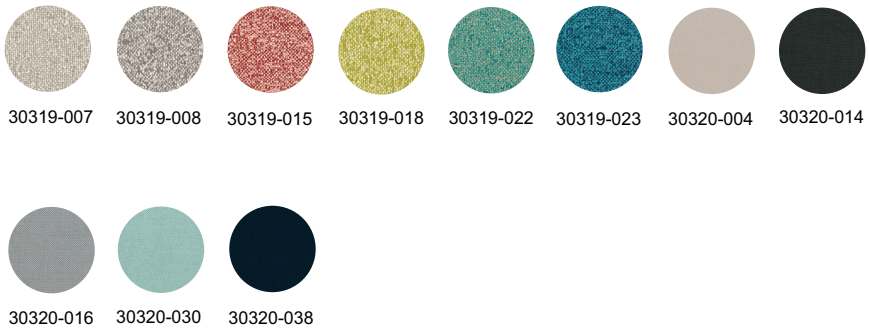

*Marmo
grey*

FABRIC

Standard fabric / waterproof

Premium fabric Rubelli / water repellent

Fabric selection is divided in two groups: Water repellent and Waterproof. Both types of high quality fabric have an adequate protection against atmospheric events and are exclusively predicted for outdoor use. Water repellent considers a fabric that is not 100% waterproof but in combination with the outdoor sponge makes that penetrated water doesn't hold back, while Waterproof material in its composition has the specific membrane that completely holds the liquid at the surface and doesn't let the penetration into fabric.

HPL

Another material in the palette is HPL (High Pressure Laminates), that was used for table tops and which is in many ways impressive, both structurally and visually. Produced by a sophisticated technological process, it's an ideal combination of aesthetics and durability to outdoor conditions, in particularly abrasion, bumps and extreme temperature variations.
